RICHMOND, CONTRA COSTA COUNTY, CAL.—WEDNESDAY, APRIL 7, 1915

NUMBER 63.

4 NURSES ARE REMEMBERED IN SPAHR WILL

Unable to show his gratitude for the kindnesses rendered him during the last few hours of his life in no other way than by the giving of money, caused Joseph Spahr, a retired Berkeley merchant, to have included in his will while lying at the Roosevelt hospital, the names of four nurses who are to receive \$100 each and that of Dr. H. Peck who is to get \$200.

Two of the four nurses who attended the dying man were Miss Lila Mahan, daughter of Mr. and Mrs. W. H. Mahan, residing at 460 Tenth street and Miss Louise Esola, former attaché of the Abbott Emergency hospital, of 508 Barrett avenue, both of this city. The other two to fall heir to the rich prize were Miss Mary Hake and Chris Funke, of Berkeley.

Spahr had been brought to the hospital as a last resort for his recovery and it was while he battled slowly for longer life that his final hours were made happy by stories and poetry which the nurses read to him.

So attentive were the four attachés of the hospital detailed on Spahr's case that he often made mention of the fact to the head nurse who passed it off as merely being in their routine work. But Spahr knew different; he knew that there was a touch of pathos to everything which was done toward making his last few days more enjoyable and resolved rather than have his money go toward the erection of a monument or tombstone to see that it helped those who had helped him.

It is but a question of a few days now until the nurses shall receive their money for the kindness which they bestowed upon a man who to all outward appearances seemed penniless, as a fitting reward for their kindheartedness.

WEDDING TO TAKE PLACE ON APRIL 15

The wedding of Miss Marjorie Sabin, a telephone operator employed at the Berkeley exchange, to B. F. Lay, a well known Standard employee, will be held at the home of the bride, 26 Water street, on Thursday afternoon, April 15th.

The young couple secured a marriage license in Martinez Monday afternoon.

DYER FUNERAL THIS AFTERNOON

The funeral of Mrs. Minerva Alger, mother of Mrs. H. Dyer, residing at 1226 Bissell avenue, was held from the Smallwood undertaking parlors at 2:00 o'clock this afternoon, interment taking place in Sunset View cemetery.

The deceased is survived by several children, most of whom reside in Vallejo.

GOODRICH'S GOLD OFFER TO OFFICER

While the Southern Pacific "Oregon Express" whistled through this city yesterday afternoon, H. M. Goodrich, convicted forger on his way to serve 14 years in San Quentin, turned, and facing Deputy Sheriff A. D. Joslin of Martinez, asked: "How much would it take for you to turn your head?"

"What do you mean?" replied Joslin quizzically.

"Just this," stated Goodrich as he slipped a \$10.00 bill toward the hands of the deputy sheriff, "and if this is not enough, I'll give you a personal check for as much as you want, on an Oakland bank."

But Joslin could not be inveigled into falling for the yellow lure, in fact it made him so mad that he was tempted to administer a beating to the debonaire had check man.

Again while the two were crossing from San Francisco to Sausalito on the ferryboat "Cazadero" Goodrich slipped the money into the hands of Joslin and pleaded with tear-dimmed eyes that he turn his head for but one second.

"What would you do?" queried Joslin.

"Well, I'd cheat that hell hole of criminals known as San Quentin, out of one more inmate, for I am not going into the place untarnished. Its gray walls are as familiar to me as your deputy sheriff's star."

This was Goodrich's swan song and as he finished it he watched with intentness the rapidity with which the ferryboat ploughed its way through the green water, each turn of the paddle wheels bringing him closer and closer to those grey walls which he dreaded.

"Won't you, please, 'Dike,'" as Joslin is familiarly known, "just fix

CHILDREN WILL MEET LIBRARY ON SATURDAY

Stories of springtime, of flowers, sunshine and April showers will be told to the children at the library on Saturday of this week at 2:30 p. m. The stories to be told are:

How we First Came to Have Umbrellas.

The Sleeping Princess. (Personifying Spring).

Five Little Seed Babies and How They Grew.

The Snowdrop, from Hans Anderson.

An excellent collection of books on gardening for boys and girls are on display in the children's room, and it is hoped will stimulate interest among the children in the growing of flowers and plants. Among the best are:

When Mother Lets Us Garden.

Small Gardens for Small Gardeners.

Little Gardens for Boys and Girls.

Gardens Shown to the Children.

Beginner's Garden Book.

Any of these books may be taken out.

ANTI-PICKETING ORDINANCE PASSED

The anti-picketing ordinance legally known as the anti-interfering ordinance has been passed by the Board of Trustees of Martinez without a dissenting vote. The ordinance makes it illegal for any one to interfere with a workman while such workman is engaged at his employment and is aimed to prevent pickets being placed on any job by the organized unions.

The punishment for violation of the ordinance is a fine of \$300 and imprisonment in the county jail for three months.

DROPS DEAD WHEN GETTING READY FOR FAIR

The failure of Mrs. Cornelia Cunningham to keep an engagement with her sister at the Panama-Pacific International Exposition on Saturday led to the discovery of her body in her home in Fourth street at Antioch on Monday.

When Mrs. Cunningham did not meet her sister, Mrs. R. H. Gavin of Concord, at the appointed time and place, the latter became worried and endeavored to communicate with her. Failing in this, Mrs. Gavin went to Antioch and found the body of her sister on the floor in the dining room. She had died of heart disease Saturday morning while preparing to go to San Francisco.

Mrs. Cunningham was 35 years old and the wife of Charles Cunningham, a traveling salesman, who is now on the road. The body was shipped to Oakland for cremation today.

Hears of Mother's Death.

Mrs. James Towers received word yesterday telling of the death of her mother, Mrs. Agnes Appleton, in North Dakota.

ASHLAND AVENUE TO BE IMPROVED

So hazardous has the operation of "jitney bus" drivers become in operating their cars close to the curb on Ashland avenue, between Ohio and Standard avenues that City Engineer H. D. Chapman has been compelled to start work for the repaving of that thoroughfare.

With the heavy rain of today several serious accidents were narrowly averted on Ashland avenue as a result of the "rotten" condition of the street.

According to City Engineer Chapman the entire street is to be harrowed following which several coats of oil macadam will be placed on its surface and then thoroughly rolled.

GRAND JURORS BILL PASSED OVER

After deciding to allow the claims against the Exposition fund those bills which the Grand Jury had held up, the Supervisors in going down the list struck one bill which every member of the Board shielded at. It was the claim of Eli Hutchinson of Ygnacio valley, a member of the present Grand Jury for 98 pounds of walnuts for which he charged 25 cents per pound, amounting to \$24.50.

Supervisor W. J. Buchanan said that he purchased any quantity of walnuts from a ranch which adjoins the Hutchinson groves for 17 cents per pound. The bill looked too big for the Supervisors, consequently it was given the once over and returned to the filing case for future consideration.

The Grand Jury also submitted a recommendation in which it was stated that excessive bills had been allowed and that for various reasons

EPIDEMIC OF MEASLES AT SAN PABLO

An epidemic of measles in its most malignant form has broken out in the town of San Pablo and is at the present time running rampant through the many Portuguese and Spanish families.

According to Dr. C. E. Camp some very stringent efforts will have to be taken in order to check the epidemic as several children at the present time are in a very serious condition.

The first case to be reported to the office of Dr. Camp was on Monday morning following which reports came thick and fast from all parts of the town, with the result that at the present time there is in the neighborhood of nearly twenty cases.

Whether the state health authorities will be called upon to help in the matter of blanketing the epidemic has not as yet been decided upon. Health Officer Dr. C. R. Blake of this city stated today that he would be willing to assist in any way possible.

WINTERS TO TAKE GRANDMOTHER OF UP AVIATION TINGSTROM IS ANXIOUS ON SIDE

Unable to satisfy his fast beating pulse with an automobile tearing over clip, Adolph Winters, florist and staunch supporter of Kaiser Wilhelm, has taken up aviation as relaxation from his work.

Winters is a good exponent of the aviation game for the reason that there are no telephone poles to hit while flying at a height of 5,000 feet and also because he has shown himself to be quite adept in handling the aircraft.

Although the florist has not as yet secured a machine, he is undecided whether the propeller of a Taube monoplane or a Curtiss biplane should wait strains of the "Undertaker's Two Step" to his ears, while cavorting amongst the clouds.

BRIDE-TO-BE GIVEN A LINEN SHOWER

The many friends of Miss Sadie Gorman last evening tendered her a linen shower at the home of Miss Juanita Burley, 622 Fifth street, in honor of her marriage to George Kerrigan, to take place the latter part of this month. Card playing and other games were indulged in by those present.

CAPACITY OF AVON PLANT TO BE INCREASED

The annual report of the Associated Oil company, issued by President William Sproule, reflects prosperity during the calendar year 1914, tempered by a strict and praiseworthy conservation in respect to production. The company's output last year was only 4,454,064 barrels, a decrease of 1,998,231 barrels from the 1913 total. Most pertinently, President Sproule says: "Because producers in California were extracting a total volume, in excess of demand, we deemed it wise to curtail extraction and retain, so far as practicable, our oil resources underground, in nature's reservoirs."

The income account and other items from the report follow: Business earnings after deducting all operating expenses, maintenance, transportation, etc., were \$4,249,041.50.

Fixed charges: — Taxes, \$167,112.49; Interest on bonds, \$764,402.12; \$931,514.61; Balance, \$3,317,526.89; Depreciation reserve, \$2,052,774.22; Balance to profit and loss, \$1,264,752.67.

"Although outstanding funded debt shows an apparent increase during the year of \$495,000, there is an increase of bonds held in the treasury of \$600,000, resulting in an actual decrease of bonds in hands of public of \$105,000. On January 15, 1915, trustees purchased and canceled from sinking fund provided during the year first refunding bonds aggregating \$1,113,000.

The refinery at Avon, Contra Costa county, operated the entire year. The net earnings of this refinery for the year were \$339,718, notwithstanding declines in price of gasoline. Increase in our refined oil business makes it necessary to increase our manufacturing capacity. Construction of additional facilities at Avon will be commenced in the immediate future.

FILES PETITIONS

Late yesterday afternoon Attorney C. S. Hannum filed three petitions with City Clerk A. C. Faris on which were 839 signatures asking that the plans and specifications for the new city hall be submitted to a referendum vote.

asking for all information pertaining to the case.

PARCELS POST AND WAR

Postmaster General Burleson announces that the parcels post will carry food to non-combatants in Europe at the risk of the sender.

If food can be shipped on neutral vessels to individuals in belligerent countries in packages weighing eleven pounds, as provided in the international parcels post law, why may not cargoes of foodstuffs be shipped from the United States to retailers in wholesale quantities. The principle of neutrality is the same in both cases, and the mere fact that the smaller amount can go by mail, does not alter the rights of private transportation companies to enjoy the same privileges as the American postoffice.

But, come to think about it, there is no law against the shipment of foodstuffs to Germany. The only trouble about it is that the British and French fleets will not allow cargoes to reach that country, and they probably would not allow the American mails to carry such parcels.

In this, as in all other wars, might makes right.

"Gen." Jacob S. Coxey, in a speech to 400 homeless men in St. Louis Sunday, denounced Democrats, Republicans, Progressives, Prohibitionists, railroads, bankers, Col. Roosevelt, William Jennings Bryan, Billy Sunday and others, and said the European war was perpetrated to destroy Socialism in Germany. A Sunday school service preceded Coxey's address in Riverside Mission, once a dance hall, and the scene of several murders. Some of the Sunday school workers remained to hear the "ginrel," but his language was so strong that most of them departed. Once Coxey was requested to use softer language.

What is regarded as one of the most important bills ever introduced in the Illinois legislature is one to prohibit all candidates for that body from signing pledges in order to secure support. The member who introduced this bill stated that during the campaign he had received requests, which were practically demands, from no less than thirty different organizations to sign pledges to vote for or against certain measures.

Old Doc Wiley, the celebrated pure food artist, has decided that one may kiss a woman on the cheek without danger, but that depends a good deal on the woman in the case, don't you think?

This typhus fever, which is sweeping Serbia, is not the same as typhoid, being much more so, and harder to handle, as the germ thereof is an elusive cuss which hasn't yet been located.

Mrs. Pankhurst, the celebrated suff, says a German victory would be a disaster for Great Britain. And that, we should say, is a rather conservative view for a suff to entertain.

A Detroit policeman is not permitted to enter a saloon except in the discharge of his official duty. But where there's a will there's a way to locate duty.

'A COUNTRY—NOT A ROAD'

Maybe China knows what is going on in the world, and maybe she doesn't. The reader may judge for himself, from this analysis of the European war written to a French paper, "L'Echo de Chine," in Shanghai.

"Now there is a great battle in Europe," says the Chinese correspondent. "This began because the Prince of Austria went to Serbia with his wife. One man of Serbia killed him.

"Austria was angry and so wrote Serbia."

"Germany write a letter to Austria, 'I will help you.'"

"Persia write a letter to Serbia, 'I will help you.'"

"France did not want to fight but they got ready their soldiers."

"Germany write a letter to France, 'You don't get ready or I will fight you in nine hours.'"

"Germany to fight them, pass Belgium."

"Belgium say, 'I am a country; I am not a road.' And Belgium write a letter to England about Germany, to help them."

"So England help Belgium."

There you have it—an explanation of the war in a hundred words. In spite of the author's halting English some of the European governments might have done worse than employ this Shanghai Chinaman to prepare their rainbow-hued books of diplomatic defense for them.

You will search through many volumes of war comment without finding so apt a phrase for the crux of the big war—"Belgium says, 'I am a country; I am not a road.'"

Statistics compiled by the United States bureau of education for use at the Panama-Pacific Exposition show that of children from 10 to 14 years of age there were in 1910 only 22 out of every 1,000 who could neither read nor write. In 1900 there were of the same class 42 per 1,000. If reduction in illiteracy is still proceeding at even the same rate, the illiterate children in this country between the ages of 10 and 14 inclusive, now number not more than 15 out of every 1,000.

Jack Rabbit sausage—made in Texas—is the newest article of food. There are millions of jack rabbits in Texas, and the state has placed a bounty of 5 cents a head on them. An enterprising business man is buying up the thousands that are being slaughtered for the bounty and converting them into a new wiener, which it is claimed, "is a gastronomical delight."

The Massachusetts legislature earnestly discussed the licensing of cats, but arrived at no conclusion. License is all right, but it should be coupled with an early closing law.

When New York papers announce engagements now they print, if possible, full length pictures of the bride, showing an ankle and about eight inches more.

Sir Edward Grey may be a great diplomatist, but he has little conception of news. He is still talking about how Germany could have avoided war.

Own Your Own Home and Be Your Own Boss on

Salinas City Farms

In the "GARDEN SPOT" of California

LOCATION—One and three-fourths miles east of Salinas City the county seat of Monterey County, with a population of about 6,000, 118 miles south of San Francisco, one-fourth mile from station on the Pajaro Valley Railroad.

The soil is a rich deep level sedimentary loam, no alkali, no adobe and no hardpan. This is soil on which you can positively "make good," easily worked and turns up nice and mellow, pulverizes readily under the harrow and retains the moisture during the summer months. The land is all cleared and ready for the plow, no rocks, trees, brush or roots.

SCHOOLS—Good grammar school is located on the property; high school at Salinas within a short walk or drive.

POTATOES—This is the home of the famous Salinas Burbank potato which always sell for

the very highest market price, often bringing twice as much as potatoes from other sections of the country. Here "THE POTATO IS KING," enormous profits are made in this section from raising potatoes. Mr. M. F. Martin of Salinas harvested 5,600 sacks of potatoes from his 38 acres—this is an average of 155 sacks to the acre—he sold the crop for \$11,000 or an average of \$289 per acre.

If you want a home.

If you want a chance to make good come and see these "SALINAS CITY FARMS," any size you want—5, 10, 15 or 20 acres.

One price all the way through, \$125 an acre.

Terms can be arranged to suit the purchaser. We give from seven to eight years to pay for it, with interest at 6 per cent.

WHAT FUN IS IT TO HAVE YOUR SPRING CLOTHES ADMIRER WHEN EVERY GIRL YOU KNOW HAD HERS WEEKS BEFORE YOU?"

"Not much, I know! For the fact that you're conspicuous when you finally do appear in something up to date proves that you've been conspicuous for another reason during the dreary, embarrassing days you didn't have a decent thing to wear!"

"Therefore, I shall start out in my old winter coat tomorrow morning for the last time. I'M GOING TO CHERRY'S AT NOON TO BUY A SPRING SUIT, ON CREDIT."

"One of the clever checked Coats or a Covert model that are so popular at Cherry's might be more practical. But the girls say CHERRY'S NEW SPRING SUITS are so absolutely and entirely ravishing that I think I'll get one of those dear short-coated, full-skirted suits, whatever else I pick out."

"CHERRY'S HAVE LOVELY new Dresses, too. Such a glorious prospect—a really happy shooting time with no heart-breaking discoveries of prices too great for me! A little money down, and small weekly or monthly payments to follow."

"Cherry's store for ladies is at 515 13th St., just across from the men's store."

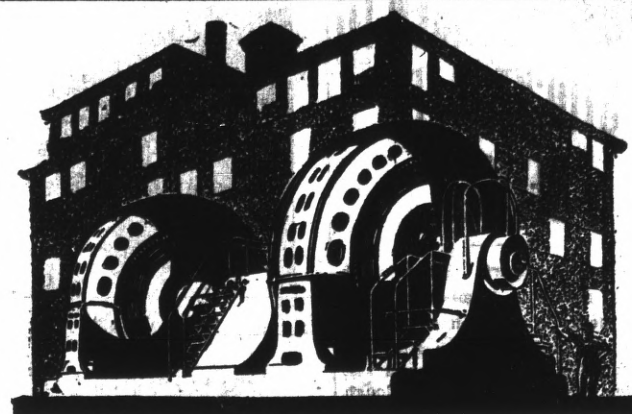

"Cherry's two San Francisco stores sell both men's and women's apparel—1009 Market and 2400 Mission Sts., are their addresses."

"THE FIGHT"—At Richmond Today and Tomorrow.

OLYMPIC CLUB TO PLAY HERE SUNDAY

Strange what a winning will do for some people. The gambler who catches the "full house" smiles as he builds air castles of better days, the jockey who pilots a winner under the wire to the applause of the multitude, smiles as he dons his cap to "fame," the fighter who lands the knockout on his opponent's chin and stands calmly by while the timer tolls off the fleeting ten seconds is no prouder or happier than "Billy" Luce is over the winning of his Elkie against the St. Mary's team Sunday. The gambler, jockey and prize fighter may all take their winnings and enjoy a few hours of "high living" but not so with Luce. Out of the gate receipts as garnered from the St. Mary's-Richmond game he has set aside a small amount to which he

intends to add more than he may angle in the stream of "ex-leaguers." That's Manager Bill Luce's way of working the National pastime in this city and we can see no difference between that and the way that Comiskey, Jennings or Stallings got by on.

But as "Neeley" O'Hara, (no we are not his press agent) states, it is the nature of the man and not the profession he is in which causes him to be dubbed a "grafter," "lobbyist," or "whatever you want to call it."

The Olympic Club of San Francisco will be the opposing forces on next Sunday afternoon and according to Manager Luce a rattling good game is anticipated.

GOODRICH'S GOLD OFFER TO OFFICER

(Continued From Page One)

your eyes on San Francisco," murmured Goodrich, but the deputy sheriff failed to hear or else hearing was powerless to act, for a small chain attached to two iron rings bound both prisoner and officer as one.

Neither officer or prisoner spoke further and as the crowd surged from the ferryboat to the Sausalito pier, Goodrich turned, and facing the Golden Gate, took one last deep breath of invigorating ocean air, the last which his lungs will draw for fourteen years and maybe longer, as he has already a one time loser.

ODD ITEMS FROM EVERYWHERE

Damage by insects costs American farmers yearly nearly \$600,000,000.

Boston has a library given 216 years ago by King William III to King's Chapel, which is still a fashionable church.

Tanners, brewers and ink makers are immune from consumption. It is said; workers in rope and turpentine works are free from rheumatism; copper miners never fear typhoid, and tar roofers are most free from disease germs.

Cow barns are models of cleanliness in Holland. Some farmers place mats before the doors and visitors must wipe their feet before entering.

Mrs. Florence Krauss of Newark, N. J., recently wed secretly, and it was discovered that five of her ancestors had done the same thing.

THE EUROPEAN WAR IN BIBLE PROPHECY.

Undreamed of passions have burst forth, devouring the lands that patient hands have beautified and made fertile, and centuries have stocked with art treasures. To the entire world the war has come, as a complete surprise because they have not read our book (60 pages—cloth) telling that just such conditions would exist, only to be followed by the still greater devastation of anarchy. The first edition came from the press in 1897.

Of vast interest and importance is its promise of better things to come for this earth, when the wrath of nations has run its course. Send thirty-four cents in stamps (with this coupon) to cover postage to The Temple, No. 31 W. 4th St., New York City, and receive a copy promptly.

GRIPPING DRAMA AT RICHMOND THEATER

Those who read or saw produced "Within the Law" will find a story from the same pen that is even more gripping and thrilling and which tells even better the splendid spiritual and yet womanly women that have been developed in this country. This new drama is "The Fight"

which comes to the Richmond theatre this afternoon and evening and tomorrow, with Margaret Wycherly in the role of Jane, who inherited a bank and who though a woman with all of the attributes that make up a woman that we can love and revere, got out and fought corruption and vice in her home city. It's a great play of modern American condition, faithfully reproduced from the drama which pleased thousands at the high priced theatres. "Or Her People's Troubles" from the Keystone studios and "The Speed King," an automobile story, makes up a very good bill.

Woman's Emancipation

is here. A delight and an indispensable aid to those who have already used them. Just six minutes to clean, polish and dry the china, glassware and silver of a dinner for eight people.

No contact with hot water, steam or hot soapy suds. Self-cleaning, sanitary, no pump used. Small in size, easily lifted and carried. Strongly built of stamped metal.

Sent prepaid, returnable at our expense within ten days, if not exactly as represented.

It has a capacity sufficient to wash at one time all the dishes of the average family, yet is so light and portable that it can be easily moved from place to place.

The movement of the handle forward and backward revolves the propeller in the bottom of the washer, which dashes the hot soapy water with a swirling effect around, through and over all the dishes, forcibly attacking them at all points, and cleansing them with absolute perfection on all sides. The dishes are completely washed in less than one minute's time and the washer works so easily that a child can operate it.

Turning down the small lever at the top of the washer, opens drain valve and discharges the water in a few seconds. The dishes are then rinsed and sterilized by pouring a dashpan of clear boiling water through the lid and turning the handle about thirty seconds. The rinsing operation automatically cleans the washer itself, which always remains in an absolutely sanitary condition.

Beautifully illustrated booklet showing every phase of the Whirlpool Sanitary Dishwasher sent on request.

Thousands are being sold by leading stores in Philadelphia, New York, Chicago, St. Louis and other large cities. The Whirlpool enjoys a monopoly of the market, and furnishes agents the best opportunities for quick money making available anywhere.

MEAT CAUSE OF KIDNEY TROUBLE

Take a glass of Salts if your Back hurts or Bladder bothers—Meat forms uric acid.

If you must have meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaker, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness, injury, and makes a delightful after-dinner lithia-water drink. Advt. Jad Salts is inexpensive; cannot

COMPANY PAYS PATENT REMEDIES BUT LITTLE TO PORTERS

The hearing that is now being held at Chicago by the United States Commission on Industrial Relations as to the pay of Pullman car porters is bringing out many interesting facts. It shows the public is forced to pay the living of the porters.

One porter told the commission just what the tipping system means to them. They could not pay expenses on the road with the salaries, to say nothing of paying rents and maintaining families, they said.

There was other interesting testimony, including a statement that Pullman car conductors do not consider it dishonest to "knock down" on seat sales enough to pay their expenses on the road. These average \$30 a month and come out of the salaries ranging from \$70 to \$95 a month. The witness who made this statement was H. H. Sewall of Chicago, a former conductor.

The first of the porters to testify was Tom S. Crenshaw, who works on a sleeper running between St. Louis and Savannah, Ill., and has done so for twenty-one years. His salary is \$42 a month.

"Well, what do you make in tips?" asked Frank P. Walsh, chairman of the commission.

"About \$75 a month," replied Crenshaw.

"So altogether you get about \$117 a month," calculated the chairman. "Have you a family?"

"Yes, sir; wife and four children, two married, and I take care of my mother. The children not married are in school."

"You have been frugal, then?"

"No, sir. We have lived pretty well."

The witness considered his a fair average run, except that the lay-over hours were advantageous.

Sylvester, in his resplendent uniform, and with diamond rings flashing, said his salary is \$27.50 a month, and tips average \$77 a month. He is a veteran and has been on the present run for thirteen years. He is entitled to \$6.33 a week from the Pullman company; he has always earned the small bonus offered by the company; his uniforms are bought for him because he has been more than ten years in service and no charge has ever been brought against him, he said. His train leaves New York in the afternoon and arrives in Chicago the next morning, and under the rules he is not entitled to any sleep except what he gets during the lay-over.

"But don't let any of them tell you they don't sleep," he said with a grin. "The man that tells you he doesn't sleep is a dangerous man. I don't mean that we go to bed, but we nod when we are supposed to be

DR. C. L. ABBOTT NEW HEAD OF THE ELKS

After investigating under the Food and Drugs Act, a large number of preparations advertised as consumption cures, the Department of Agriculture has not been able to discover any that can in any sense be regarded as "cures" for tuberculosis. Some contain drugs that may at times afford some temporary relief from the distressing symptoms of the disease, but this is all. Since the passage of federal legislation prohibiting the shipment in interstate commerce of medicinal preparations for which false and fraudulent claims are made, there has been a marked tendency to label these preparations "remedies" instead of "cures" or "infallible cures" as they used to be called. In many cases, however, they can not even be regarded as remedies.

A "cherry balsam," for example, for the "cure" of "consumption" and "hemorrhage of the lungs," which it was represented would "strike at the very root of the disease" was found on analysis to be nothing but a solution in water and alcohol of opium, sugar, benzaldehyde, inorganic salts and coloring matter. It contained no cherry bark extract or balsam.

A more elaborate "cure" consisted of five different preparations which the credulous patient was to take separately. These were first the medicine proper, the essential ingredients of which were found to be morphine, cinchonic acid and arsenic—not a safe mixture to take habitually; second, a tonic which was supposed to contain iron but did not; third, a "cough mixture" made up of alcohol, chloroform, and codeine which is a derivative of opium or morphine; fourth, a mixture which contained some quinine, and a solution of water and alcohol; and fifth, codeine tablets. Even the strongest constitution could hardly stand a prolonged course of such a treatment.

In the marketing of such preparations considerable ingenuity is frequently shown. One of the main objects is to persuade the patient that he is receiving, at a comparatively low price, the individual attention of a trained specialist. For this purpose symptom blanks are employed. These contain a number of questions about the patient's symptoms, the number varying from a dozen or so to as many as 70 or 80. The patient is led to believe that the information which he furnishes in reply to these questions will be carefully considered before any medicine is prescribed for him, though every physician knows that an accurate diagnosis cannot possibly be made in this way. As a matter of fact none is attempted and the degree of attention which these individual reports receive can be measured by the fact that cases have come under the observation of the department in which mail order concerns doing a business of this kind have received as many as 4,000 letters a day.

After the patient has submitted his "diagnosis report" he is urged to purchase a supply of the medicine. If he does so, he is then urged to purchase more. If he states that he has experienced no beneficial effects he is told that he has not taken on guard in the aisle. All the superintendents know that.

"But it is against the rule," suggested Mr. Walsh.

"They do not care about that; all they care about is that we don't get caught at it. We sit up, just to guard the car anyway; they know it, and a breath of air will awaken an experienced porter. It's instinct and the car really is guarded."

Commissioner O'Connor asked what would be the effect if Congress passed an anti-tipping law.

"Why, the porters would simply quit. You can see that for yourself. They couldn't live on \$27.50 a month."

"Then would you organize and petition the company?" pursued the commissioner.

"We would quit and then tell the company we could not live on the wages."

"But suppose wages were not raised?"

"Well, I want to tell you that if the porters were getting nothing but wages and a passenger with \$2 in his clothes got on he would not be safe."

Dr. C. L. Abbott was installed with considerable pomp and ceremony as exalted ruler of Richmond Lodge of Elks last evening following his immediate return from a trip to Tiffin, Ohio.

Other officers also placed in the chairs by the "Bills" for the coming year were: J. A. Bell, esteemed leading knight; Howard E. French, esteemed loyal knight; H. W. Tuller, esteemed lecturing knight; J. P. Arnold, secretary; J. O. Ford, treasurer; Peter R. Brown, Tyler.

enough, and this process is likely to continue until the limits of his credulity have been reached. If, on the other hand, he decides at the beginning not to purchase the medicine it is likely to be offered to him at successively lower prices until he is at least induced to believe that he cannot afford to ignore such a bargain. This is carried to such an extent that a "treatment," the original price of which is \$25, may be offered at the end of six months for \$2.50.

As a matter of fact the successful treatment of tuberculosis requires much more than the mere giving of medicine and, moreover, what will help one case will not necessarily help another. Claims that are absolutely unwarranted are no longer permitted on the labels of medicine shipped in interstate commerce, but the wording may be such as to convey a misleading impression without the use of absolute statements. Thus these preparations continue to find a sale despite the fact that a little trouble on the part of the prospective purchaser will reveal their worthlessness.

Sprains, Bruises Stiff Muscles

Sloan's Liniment will save hours of suffering. For bruise or sprain it gives instant relief. It arrests inflammation and thus prevents more serious troubles developing. No need to rub it in—it acts at once, instantly relieving the pain, however severe it may be.

Here's Proof
Charles Johnson, P. O. Box 106, Lawrence, Kan., writes: "I sprained my ankle and dislocated my left hip by falling out of a third story window six months ago. I went on crutches for four months, then I started to use some of your liniment, according to your directions, and I must say that it is helping me wonderfully. I threw my crutches away. Only used two bottles of your liniment and now I am walking quite well with one cane. I never will be without Sloan's Liniment."

LADIES! DARKEN YOUR GRAY HAIR

Look years younger! Use Grandmother's recipe of Sage Tea and Sulphur and nobody will know

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry feverish, itchy scalp and falling hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark, glossy, soft and abundant. Advt.

HEADACHE STOPS, NEURALGIA GONE

Dr. J. James' Headache Powders give instant relief—Cost dime a package.

Nerve-racking, splitting or dull, throbbing headaches yield in just a few moments to Dr. James' Headache Powders which cost only 10 cents a package at any drug store. It's the quickest, surest headache relief in the whole world. Don't suffer! Relieve the agony and distress now! You can. Millions of men and women have found that headache and neuralgia misery is needless. Get what you need for.

CLASSY VAUDEVILLE IS BIG FEATURE AT PANTAGES

The Oakland Pantages vaudeville bill this week is unusually long and the quality is not lacking. Lester Fountain certainly put over a winner when he wrote "Wild Oats" for Genevieve Lee and Ted MacLean. The playlet is daring in conception and deals with facts told straight from the shoulder, however the plot conveys a moral and is admirably acted. In the hands of less gifted players some of the lines might give offense but Miss Lee and her associates show fine discrimination and their speeches are applauded.

Mr. and Mrs. Robyns who appear in the sketch, "David Berg, or One Hundred Cents on the Dollar," are in receipt of a number of complimentary letters from prominent Oakland Jewish families. Mr. Robyns' "David Berg" is such a lovable character that it has apparently charmed those Jewish lovers of fair play.

Other acts on this week's bill, that provide excellent entertainment are Menomoe-Aiken and company, dancers and contortionists; Wright and Davis in a funny little skit entitled, "The Love Insurance Agent," Williams Brothers, soft shoe dancers, J. Edward Pierce and Marie Roslyn with their musical act, "A Whirl of Melody" and "Mum's the Word," a lively musical tabloid.

Next week the headliner will be the Tasmanian-Van Dieman troupe of aerialists.

The prizes offered by the U. S. District Forester for particularly meritorious work in fighting forest fires during last fire season have been awarded to Clarence M. Reeve of the Klamath National Forest, Milton D. Morris of the Eldorado, and Ernest E. Duncan of the Trinity.

Guard Reeve was notified by District Ranger Phillips of a serious fire on the mountainside eight miles from his station. He saddled up and arrived at the fire, properly equipped, in time to prevent it from spreading, having covered the distance in one hour and twelve minutes. He watched the fire all night, and in the early morning was informed that men were needed to fight a fire on Walker Creek. He rode all day to reach this fire, arriving in time to assist in corraling it. The next day and a half he spent felling the burning snags and making the fire safe; and then returned to his station, having spent four days doing efficient work with practically no rest.

Guard Morris was notified after dark that a fire had started five miles from his station. He was ready in one and one-half minutes, and arrived at the fire over a very rough trail in one hour and fifteen minutes.

Guard Duncan with one assistant rode 18 miles and extinguished two fires in one day, the fires being widely separated and in exceptionally difficult country.

The prizes are in the form of framed certificates, each bearing the name of the winner.

INTERESTING SPORTING NOTES

The war correspondent's South land dreams are nearly over.

The Newark Federals are trying to build a grandstand in 18 days.

Freddie Welsh will hook up with Billy Wagner at Toledo tomorrow night.

The eastern amateur wrestlers depart for Frisco tomorrow to compete against western matmen on the 16th and 17th.

Martin Sheridan may go after the decathlon championship. The elimination of the walk and substitution of the discus he thinks may give him a chance.

Sam McVey is on his way from

Havana to Boston, where he meets Sam Langford in the revival of boxing at the Hub.

The Central Association is out with a schedule of 128 games, to open May 5th, Burlington at Waterloo, Keokuk at Cedar Rapids, Muscatine at Mason City and Clinton at Marshalltown.

The National amateur trapshooting championship will be held April 30 and May 1 at Travers Island, New York. It looms up as a record event this year.

Charley White and Jimmy Duffy meet at 136 pounds at Buffalo tomorrow night. Both boys are claimants to the lightweight championship of America.

The Federal League magnates assure us that all discord has been patched up, and the opening gun will be fired on Saturday. It is said that peace is in sight for next year, with three big leagues operating in harmony.

The sale of Joe Gans' hotel in Baltimore recalls the fact that he built it with money he got in the Bat Nelson fight. This was his largest plum, and it was his undoing.

English soccer players have had pay cut to \$15 a week. The boys used to get the princely sum of \$20 per week, but this princely sum has nearly bankrupted several clubs.

The western racing circuit will open in Denver on June 12. Reno and San Francisco are now in the circuit. Forty days of sport will be furnished the horsemen at the Frisco fair.

Big Chief Bender will tonight hurl a ball the length of the banquet hall at Baltimore, where the Baltimore Feds will feast and be merry. Catcher Jacklitosh will receive the pill and everybody will cheer.

Snowy Baker writes to friends from Australia of the boxers' union into which the Australian boxers were roped, to demand 30 per cent of the gate receipts for each fighter.

The Gobbons-McFarland bout will go to the club bidding highest. Milwaukee is said to have made a big bid for the mill.

Pal Brown has a hard job on his hands for Friday night, when he mixes it up with Joe Mandot of Superior, Wis. He is showing good form, and plans to show in the east before making another trip to Australia.

WONDERFUL FEATS PERFORMED BY ANIMALS

No more interesting feature is presented by the Barnes Wild Animal Circus than the corps of equestrians, in fact the Barnes show has more of them than any other circus. The conventional in this particular, however, has been upset, and instead of people appearing as riders, trained animals perform the acts.

In one act a company of Rocky Mountain goats appear as riders of galloping horses. Apes, chimpanzees, monkeys and dogs also work in the act.

A quartette consisting of a leopard, lion, grizzly bear and goat, ride together in a very remarkable exhibit. This act involves one of the greatest attainments known among animal trainers.

Another spectacle almost unbelievable, are the horse riding, man-eating African lions. These lions leap from the ground onto the backs of running horses and from the backs of the horses through hoops of fire. The training of these animals consumed months of time.

Astonishing indeed, are the feats performed by a group of seals and sea lions. These cumbersome animals have been taught to ride on horseback and at the same time juggle small articles such as billiard balls on the tips of their noses.

Hours for performances are 2 and 8 p. m. with doors opening at 1 and 7 p. m. The parade will start promptly at 10:30.

The date for Richmond is Sunday, April 11.

MRS. ANNA MARTIN TO BE GRANTED DIVORCE

Superior Judge A. B. McKenzie today intimated that a divorce would be granted to Mrs. Anna J. Martin from her husband "Jack" Martin, proprietor of the "Curio" saloon, corner of Third street and Macdonald avenue this city, on grounds of extreme cruelty, but that as yet no definite agreement had been reached as to the settlement of the property interests.

Mrs. Martin in airing her divorce proceedings before the Superior Court, had a number of the members of the Richmond club placed on the stand as witnesses, together with her daughter, Mrs. Steven Detlow, wife of a local wine merchant.

UNION LAJOR MEN FILE PETITIONS WITH CLERK

Attorney H. J. Wildgrube this afternoon filed the petitions of J. O. Carmen, J. B. Ogborn and James Snee as candidate for the office of city councilman with City Clerk A. C. Faris.

This brings the list of candidates for the offices to be vacated by John Hartnett, G. A. Follett and Joseph Willis up to fifteen.

BLACKSMITH SHOP OF MOLTOZA ON EIGHTH ST.

F. G. Moltoza, formerly of San Pablo, on the first of the past month purchased of G. E. Campbell the latter's interest in the general blacksmithing and horseshoeing shop at 256 Eighth street, Richmond, and became the sole proprietor.

Mr. Moltoza was born and reared near San Pablo and for a period of sixteen years conducted an industry similar to his present one in that town. He is quite well known to the farming community of this section of the county and enjoys a large personal following and acquaintance. He has watched the phenomenal growth of Richmond with the greatest interest ever since the city sprang into existence and is familiar with every phase of its development. It has not been very long since Mr. Moltoza, with dog and gun, was in the habit, in season, of shooting over the site of the city of Richmond.

Having determined to follow his trade in this city Mr. Moltoza purchased the interests of Mr. Campbell at the same time disposing of his San Pablo shop. He has increased the resources and facilities of the Richmond smithy and expended the character of its activities.

There are no vehicles in the world wider and better known for perfection of design, material and workmanship than are the products of the great Studebaker factories. They are not only sold in large numbers in every section of the United States, but are shipped to all parts of the earth as desirable modes of transportation, carriage and street service. Mr. Moltoza has secured the Richmond agency of the Studebaker vehicles and will take orders for wagons, buggies, street sprinklers and flushers. He will display examples of the best work of the great eastern manufactory and thus add to his business a department of large value to the agricultural neighborhood tributary to Richmond and the city buyers.

Mr. Moltoza will also offer for sale graders, concrete mixers, road rollers, Fresno and hand scrapers and a large variety of the most modern garden machinery. All of these accessories to the rapid improvement and cultivation of the surrounding country are the work of a factory of established international reputation. They are scientifically designed to save time and labor and to perform their work in the best possible manner.

The blacksmith shop is completely equipped. Mr. Moltoza is known as a skillful mechanic and much of his time has been given to the repairing of vehicles and all kinds of agricultural implements and intricate machinery. He will build wagons and buggies to order and enter into contracts to do all kinds of extensive blacksmith work. His shop is equipped with a comprehensive stock of material of the first quality. No inferior steel, no imperfect iron, no faultily made bolts, screws or taps are used by the workers of the shop.

"First-class work cannot be done with poor material and incompetent workmen. In fact, an experienced mechanic cannot work with poor material and for that matter with poor or inefficient tools. These things must be kept up to the standard of his ability as a producer," concluded Mr. Moltoza. "I make it a principle of my business to employ only mechanics of ability, to buy good material and to keep my shop supplied with up-to-date tools. Then I can give quick and perfect service to my patrons."

Mr. Moltoza understands the horse, his foot and his ways and will run a horseshoeing department in connection with his blacksmith shop.

The proprietor of this latest acquisition to the business interests of Richmond has already become one of the most enthusiastic boosters and takes the liveliest interest in all measures of public welfare.

MUCH MONEY IS DUMPED IN BAY ANNUALLY

"When will California catch up with China?" demands Professor C. B. Lipman of the University of California in a statement in which he declares that the state is annually dumping over two hundred thousand dollars into the sea every year.

Professor Lipman, who is widely known as an authority on soil chemistry, has been conducting an investigation together with Professor P. S. Burgess on the subject of sewage disposal in California and has discovered some startling facts.

Without any greater cost than at present in dumping sewage and garbage in the ocean, it is declared that all such could be turned into fertilizer of a commercial value running into hundreds of thousands of dollars per year. By experiments, the soil experts have discovered that the nitrogen in sludges from sewer system septic and Imhoff tanks is very much more available for plant use than nitrogen in dried blood, fish guano, etc. They recommend the use of air-dry sludge from septic tanks especially on the lighter soils. To put this on the soil, they state, would cost little more than the present extravagance of throwing it away by barge loads.

Already eighty-nine California communities treat their sewage by septic tanks, according to the investigators, and so the sludge would be easily available. The surprising fact is revealed by the report that there are sixty-four California municipalities that have no sewer system at all, while the sewage from over a million population in the state is dumped into the sea without any septic treatment whatever. That a similar situation exists nearly everywhere except in China is the statement of Professor Lipman.
